AIMSweb Plus

AIMSweb Plus is a web-based assessment, data-management, and reporting system that provides the framework for Multi-Tiered System of Supports (MTSS) and multi-tiered instruction. Designed specifically to universally screen and progress monitor students, AIMSweb Plus uses brief, valid, and reliable measures of reading and math performance for grades K-8 that can be used with any curriculum. District 90 is using AIMSweb Plus three times a year to determine whether students meet benchmark goals, which represent minimum levels of performance for all students to reach in order to be considered on track. Specific students who demonstrate need will be progress monitored between the benchmark periods using an AIMSweb Plus progress-monitoring assessment to more closely determine progress and provide intervention as needed. For more information, see our fact sheet.
